CAREER SUMMARY

Experienced software developer proficient in JavaScript/TypeScript with strong problem-solving skills. Collaborative team player with excellent communication and analytical thinking abilities. Committed to continuous learning and staying informed about industry trends. Seeking to contribute to a dynamic software development team.

SKILLS & STRENGTHS

- **Programming Languages:** Proficient in JavaScript/TypeScript, C#, Python, T-SQL, HTML, and CSS, along with frameworks such as React, Next.js, .NET, Django, Bootstrap, and Tailwind CSS.
 - **Database Management:** Knowledgeable in database systems and data modeling, with familiarity in relational databases.
 - **Version Control:** Experienced in Git version control, including branching, merging, and resolving conflicts.
 - **Testing & Debugging:** Understanding of software testing methodologies, including unit testing, integration testing, and debugging techniques.
 - **Problem-Solving:** Capable of analyzing complex problems, breaking them down into smaller issues, devising effective solutions, and efficiently implementing them.
 - **Collaboration & Teamwork:** Skilled at working in teams, demonstrating strong interpersonal skills and the ability to collaborate effectively with team members, product managers, and stakeholders.
 - **Adaptability:** Willing and enthusiastic about learning new technologies and frameworks, as well as staying up-to-date with emerging technologies and industry trends.
 - **Time Management & Organization:** Possesses the ability to prioritize tasks, meet deadlines, and manage multiple projects simultaneously.
 - **Analytical Thinking:** Capable of approaching problems analytically by identifying patterns and making decisions based on requirements, available data, and input from peers and senior team members.
-
