PROFESSIONAL HISTORY & EXPERIENCE

Kenzie Academy (2019-2020) An intense and comprehensive 52-week Software Engineering course that prepares students to enter the workforce with the knowledge and skills sought after by employers throughout the industry.

Kelly Services (2019-2020) Helped customers over the phone with their Apple products to find solutions to their technical problems, concerns, and questions in a prompt and professional fashion. Also served as a brand ambassador by informing customers of Apple's current products and services.

Blichmann Engineering (2019) Manufactured specially designed products. Including pots, kettles and fermentors for personal and commercial breweries. Meeting ship dates and customization options requested by the customer.

Lafayette Wire Company (2018-2019) Operated a hydraulic press that bent steel rods of varying gauge to specific shapes and tolerances for later assembly into various products, such as commercial shelving and industrial material containers.

Connecta Corporation (2016-2018) Painted, coated, and chemically treated precision milled aircraft parts. The meticulous record keeping and the tight tolerances of the painting and coating process made meeting shipping deadlines difficult. This position forced me to be efficient with my time and plan ahead to maximize output while meeting deadlines.

Hendrickson Trailer (2010-2016 & 2018) As a part of a team of 5-10 members, our team's objective was to paint and perform pre-assembly for semi-trailer suspension systems. This position required extensive knowledge of the systems and procedures put in place. As well as high levels of cooperation and communication within our team and other teams in different departments in order to get the product processed through our line and into final assembly.

U.S. Army Reserve (2008-2016) Though I never deployed overseas, the years that I spent training were invaluable in both my professional and personal life. I learned to overcome adversities under stressful situations and working as a cohesive unit to accomplish the mission at hand, and gained the discipline to succeed in whatever I set out to do.
